

Chemistries of **SUPERFORM™**

About SUPERFORM

We are a pioneering specialty chemistry company with a fresh perspective. While manufacturing is at the core of our expertise, what truly distinguishes us is our mastery of complex chemistries, our problem-solving acumen, and our commitment to creating meaningful impact—for our customers, partners, employees, and the world.

Yet, we go far beyond manufacturing. We craft cures, blend colors and dyes, spark creativity, nourish the planet, restore machinery, and drive sustainable innovations. Our mission is to shape a better tomorrow, turning aspirations into achievements and dreams into reality. We accomplish this as a trusted partner in innovation and performance across the diverse industries we proudly serve.

Reaction Capabilities & Manufacturing Scale

HCN

Current Capacity of ~ **10kTA** with regulatory approvals for additional ~ 20kTA

Phosphorous

One of Asia's largest phosphorous-based manufacturing having a handling capacity of ~**100kTA**

H₂S

We synthesize & manufacture ~**40kTA** of hydrogen sulphide for downstream derivatives like mercaptans, rubber chemistries etc

Phosgene

Current capacity ~**1kTA** ready to be scaled to ~**15kTA** with an operational timeline of 12 months.

Acrolein

Only manufacturer in India that handles Acrolein with a capacity of ~**7kTA**

Others

We synthesize & handle almost everything like Chlorination (Sidechain, Ring, Aliphatic type) to Hydrogenation (Reductive Alkylation, Methylation), and Phosgenation (Acid Chlorides, Chloroformates, Isocyanates etc)

Chemistries

Industries & Application

Our high-performance chemistries have a wide range of applications, including Dyes, Textiles, Optical Brightening Agents, Pharmaceuticals, Food & Beverages, Personal Care, Agrochemicals, Mining, Water Treatment, Oil & Gas, Flame Retardants, Lubricants, Batteries, Advanced Materials, Electric Mobility, Space and Aviation.

Our Commitment to Safety & Sustainability

Above all else, we ensure the safety and security of our employees, our partners, and our customers and are committed to always making chemistry better and using it to benefit people, communities, and the planet.

At SUPERFORM we are:

- DJSI & Sustainalytics rated **#1** among the agrochemical manufacturing companies globally
- **FTSE4Good, Responsible Care & ISO 14001 Certified**
- Committed to reduce **20% sp.water, 25% sp.CO2 & 25% sp.waste** by FY2025 from the base line FY 2020
- Committed to achieving **60%** sustainable sourcing by FY2025
- Committed to releasing the report related to **Task Force on Climate Related Financial Disclosures**
- Getting our sustainability targets approved by **UN initiated SBTi**
- Impacting **1.75 million** lives through livelihood, education, health, and sanitation

Why partner with SUPERFORM?

Handle complex chemistries with safety

Strategic Tie-Ups

Economies of Scale

Best Grades & Purity

Top of the line R&D

Custom Synthesis

Backward Integration

Change chemistry.
Change everything.
